

DAVID AMORIM XAVIER

Full Stack Developer | React | Next.js | Node.js | WordPress | APIs

São Paulo, Brazil | +55 11 99748-5250 | webxddesign@gmail.com
github.com/xdplans-dev

Open to international opportunities and relocation to the United States, Canada, or other countries that offer meaningful career growth.

PROFESSIONAL SUMMARY

Full Stack Developer with 10+ years of hands-on experience in programming, web development, and technology. Founder of XD Plans, a digital development business established in 2018. Builds websites, e-commerce platforms, custom systems, and web applications, covering front-end and back-end development, databases, API integrations, deployment, and maintenance. Self-taught, analytical, and experienced in translating client requirements into working software.

TECHNICAL SKILLS

Front end: JavaScript, TypeScript, React, Next.js, HTML5, CSS3, Tailwind CSS, Material UI, Chakra UI, Framer Motion, responsive design.

Back end and APIs: Node.js, Express.js, PHP, REST APIs, JWT, webhooks, system integrations, process automation.

Databases: MongoDB, MongoDB Atlas, Mongoose, MySQL, MariaDB, SQL, Prisma.

WordPress and e-commerce: Custom plugins and themes, WooCommerce, checkout customization, integrations, maintenance, optimization.

Deployment and infrastructure: Git, GitHub, Vercel, Render, Linux, Debian, Apache, hosting, domains, DNS, SSL, production environments.

Additional technologies: Kotlin, Android, React Native, AI APIs, AI-assisted development, technical SEO, hardware troubleshooting.

PROFESSIONAL EXPERIENCE

XD Plans | Founder and Full Stack Developer | 2018 - Present

- Develop business websites, e-commerce platforms, custom web systems, and administrative dashboards.
- Build React and Next.js applications and back-end services with Node.js and Express.
- Design and integrate MongoDB and MySQL databases; implement authentication, access control, and REST APIs.
- Create custom WordPress plugins and themes, extend WooCommerce, and integrate external platforms.
- Deploy applications to Vercel and Render; configure hosting, servers, domains, DNS, and SSL.
- Gather requirements, work directly with clients, troubleshoot issues, and maintain and enhance applications.

Agência Hina | Co-founder and Web Developer | 2014

- Developed digital projects with HTML, CSS, JavaScript, PHP, and WordPress; customized interfaces and worked with clients on planning and implementation.

EARLIER EXPERIENCE

Microlins | Computer Assembly and Maintenance Instructor | 2013

- Taught computer assembly, preventive and corrective maintenance, operating systems, hardware diagnostics, and computer configuration.

ProrSoft | IT Technician | 2009

- Provided technical support, diagnosed hardware and software issues, maintained computers, and installed and configured systems.

SELECTED PROJECTS

XD Press | Content Management Platform

Built a proprietary platform with Next.js, React, Node.js, MongoDB Atlas, Mongoose, and REST APIs. Features include an administrative dashboard, page and post management, analytics, view tracking, and user management. Deployed on Vercel and Render.

Real Estate Platform

Developed a custom property management system with listings, an administrative dashboard, advanced filters, location and property searches, a blog, REST APIs, WhatsApp integration, and MongoDB.

WordPress and WooCommerce Plugins

Developed simplified checkout flows, minimum order rules, custom delivery methods, advanced property filters, custom cart functionality, administrative features, and external integrations.

Android Applications

Built Kotlin projects with API integrations and WebView functionality, including application structure and preparation for release.

Suzuki Motos do Brasil | Website Development Contribution | 2015

Contributed to the development of the official Suzuki Motos do Brasil website using WordPress.

EDUCATION AND TRAINING

High School Diploma

SOS Computadores | 2009

Web Programming: HTML, CSS, Adobe Dreamweaver, Adobe Flash, and web development fundamentals.

Graphic Design: Adobe Photoshop, Adobe Illustrator, and graphic creation and editing.

LANGUAGES

English - Intermediate. Reading comprehension and written communication are stronger than spoken conversation. Continuing to develop conversational confidence and fluency.

INTERNATIONAL CAREER GOALS

My long-term goal is to live and build my career abroad. I am interested in opportunities in the United States, Canada, and other countries where I can contribute to real-world projects, grow technically, and learn with an international team.

A note to my future team: As we build new things together, I hope to keep improving both the products and my English.
